

Friday: FAP / MAP

| | | |
|---|---|-------------------------------|
| 07:00 | CAPP 2 Breakfast Session | Chairperson: John Burn |
| Plenary session 4: Basic science, epidemiology FAP and MAP | | |
| Chairpersons: Julian Sampson, Steve Gallinger | | |
| 08:00 | A new conditional APC mutant mouse model for colorectal cancer | Els Robanus-Maandag |
| 08:10 | Changing causes of death in Familial Adenomatous Polyposis: signs of progress but more work to do | Craig Messick |
| 08:20 | MUTYH associated polyposis - variable clinical phenotype and report on novel mutations | Elke Holinski-Feder |
| 08:30 | Renal cancer as part of the phenotype of MYH-associated polyposis; the evidence gets stronger | Brandie Leach |
| 08:40 | Genotype-phenotype correlation of MUT-Y (MYH) E466X bi-allelic mutation carriers in the Indian population and G382D/Y165C bi-allelic and compound heterozygote Caucasian population | Christina Thirlwell |
| 08:50 | Analysis of MUTYH genotypes and colorectal phenotypes in patients with MUTYH associated polyposis | Maartje Nielsen |
| 09:00 | Colorectal cancer risk in MUTYH heterozygotes | Julian Sampson |
| 09:10 | Extracolonic tumour spectrum and incidence in 276 MAP patients | Stefan Aretz |
| 09:20 | General discussion | |
| 09:30 – 10:00 hrs Coffee break | | |
| 10:00 | Bussey lecture Psychosocial Issues in familial cancer predisposition' Introduction by Allan Spigelman | Bettina Meiser |
| Plenary session 5: psychological issues, desmoid disease | | |
| Chairpersons: Terri Berk, Sue Clark | | |
| 10:30 | Familial Adenomatous Polyposis (FAP): attitudes towards genetic testing in childhood and reproductive decision-making | Kirsten F.L. Douma |
| 10:40 | Compliance with endoscopic surveillance advice for Familial Adenomatous Polyposis (FAP): room for improvement | Kirsten F.L. Douma |
| 10:50 | MyFAP: an internet-based psychosocial intervention for adolescents and young adults with FAP | Susan K. Peterson |
| 11:00 | Children with Familial Adenomatous Polyposis who underwent early colectomy: psychological, quality of life and pouch outcome | Carol Durno |
| 11:10 | General discussion | |
| 11:20 | Development of desmoid tumor in FAP patients undergoing colectomy: IRA vs IPAA | Xhileta Xhaja |
| 11:30 | Desmoids risk and laparoscopic surgery in FAP | Marco Vitellaro |
| 11:40 | Abdominal surgery for desmoid disease in FAP | Matthew F. Kalady |
| 11:50 | General discussion | |
| 12:00 – 13:00 hrs Lunch break & Posters | | |
| <i>13:00 – 13:30 hrs Business meeting</i> | | |
| 13:30 | Jeremy Jass lecture "Deciphering inherited susceptibility to colorectal cancer" Introduction by Anika Lindblom and Joanne Young | Richard Houlston |

Plenary session 6: Treatment colorectal and duodenal polyposis

Chairpersons: Miguel Rodriguez-Bigas, Steffen Bulow

| | | |
|-------|--|-----------------------|
| 14:00 | Is there a genotype-phenotype correlation for ileal pouch polyposis in patients with Familial Adenomatous Polyposis? | Alexander C. von Roon |
| 14:10 | Non-surgical management in attenuated Familial Adenomatous Polyposis: the potential role of long-term endoscopic surveillance | Patrick Lynch |
| 14:20 | Chemoprevention prevents proctectomy and rectal cancer in FAP | Carol A Burke |
| 14:30 | Prophylactic pancreaticoduodenectomy for advanced duodenal adenomatosis in Familial Adenomatous Polyposis | James R A Skipworth |
| 14:40 | What happens when you remove the duodenum from a patient without a colon? Is bowel function or quality of life impacted? | Yehuda Kariv |
| 14:50 | Outcome based on management for duodenal adenomas: sporadic versus familial disease | Michael D. Johnson |
| 15:00 | In Familial Adenomatous Polyposis: multiple targeted endoscopic biopsies are accurate in assessing severity of duodenal adenomatosis | Musa Drini |
| 15:10 | Endocrine abnormalities in Familial Adenomatous Polyposis patients | Carol A. Burke |
| 15:20 | General discussion | |

15:30 – 16:00 hrs Coffee break

16:00 David Jagelman Consultant Conference

Robin Phillips
